Exploring the Future of Global Food and Nutrition Security (Foodsecure), 2012 - 2017

Responsible researcher/Zodpovedný riešiteľ: prof. Ing. Ján Pokrivčák, M.S., PhD.

Abstract/Opis: FOODSECURE aims to design effective and sustainable strategies for assessing and addressing the challenges of food and nutrition security.

FOODSECURE provides a set of analytical instruments to experiment, analyse, and coordinate the effects of short and long term policies related to achieving food security.

FOODSECURE impact lies in the knowledge base to support EU policy makers and other stakeholders in the design of consistent, coherent, long-term policy strategies for improving food and nutrition security.
