

International Master Double Degree Program in Business Economics

**provided by
University of Agriculture in Krakow, Poland
&
Slovak University of Agriculture in Nitra, Slovakia**

**Outstanding opportunity for you
to add international dimension
to your master education**

Challenging study abroad experience and double diploma

- Two-year study program in English, including two semesters abroad
- Visiting professors from the Louisiana State University, USA and Visegrad countries who will deliver selected lectures and seminars

- Double degree is considered to provide graduates with a competitive advantage on the labour market and allow greater mobility among countries.
- Double Degree Program is provided by partner universities in Central Europe.
- No tuition fee paid at partner's university.

- As a part of the program various thematic excursions will be organized to discover market environment of Visegrad and Central European countries and learn from the best business practices in the region.
- Students can benefit from similar cultural environment in both countries and quite low cost of living.

- Graduates are able to analyze various economic relations in business processes, propose and implement managerial decisions while applying a high degree of autonomy and creativity.
